

Boron Trifluoride General Awareness Training Seminar

Honeywell's technical service team offers Boron Trifluoride (BF₃) customers in-person training seminars year-round.

Honeywell
THE POWER OF **CONNECTED**

BF₃ General Awareness Training by Honeywell Experts

These industry-leading training sessions are designed to inform Honeywell customers about the properties and safe use and handling of BF₃. Training seminars include:

General awareness
and safety

Delivery
equipment

Safe
handling

Emergency response
considerations

Tailored to Meet Your Needs

For your convenience, we can provide these in-person training sessions at your location and tailored to meet your needs.

Essential Training for BF₃ Users

The training sessions are well-suited for new employees, or as a refresher for more experienced employees. These seminars provide useful tips on:

- Properties, hazards, and uses of BF₃
- Personal protective equipment considerations
- Proper first aid treatment
- Shipping and storage equipment
- Process system considerations
- General BF₃ emergency response
