

HF ACID GENERAL AWARENESS AND FIRST AID TRAINING

In-Person & Online Seminars

Honeywell's technical service team offers customers options for HF acid training. We provide in-person HF training and occasionally offer on-line webinars.

Honeywell

HF GENERAL AWARENESS AND FIRST AID TRAINING BY HONEYWELL EXPERTS

These industry-leading training sessions are designed to inform Honeywell customers about the unique properties of HF and suggested medical treatment. Training seminars include:

Recommended Medical Treatment of HF Exposures (hosted by a Honeywell physician)

General Awareness, Safety and First Aid Training for Anhydrous HF

General Awareness, Safety and First Aid Training for Aqueous HF

TAILORED TO MEET YOUR NEEDS

We can come to your location for in-person training and tailor the session to meet your needs.

ESSENTIAL TRAINING FOR HF USERS

The training sessions are well-suited for new employees, or as a refresher for more experienced employees. These seminars provide useful tips on:

- Properties, hazards and uses of HF
- How and why HF exposure differs from other chemicals
- General HF emergency response
- Personal protective equipment use and decontamination
- Proper first aid and medical treatment, as well as symptoms and follow-up care
